Your Reliable Partner in the Supply Chain Process

SHUTTLE PARS, MEASURE THE SUCCESS

 [SHUTTLEPARS.COM](https://shuttlepars.com)

Introduction

Shuttle Pars Company

Shuttle Pars Trading Co. (SPT) is one of the leading engineering & supplying companies in the field of process automation & field instrumentation with more than three decades of experience.

Considering our expertise in dealing with challenges we have had in different projects during the past thirty two years, we have been renowned not only as a package supplier, but also as a trustworthy business partner in both technical & commercial demands of our customers.

Preparing the best & complete solutions for Iranian customers has been always our top priority to work with different manufacturers within these years. This would be proved just by a short look through our sales references in which you would find a variety of the most important Iranian end customers & EPCs.

KROHNE

The Spirit of Creativity

Your Partner in Process Instrumentation Since 1921

The KROHNE Group is a global manufacturer and provider of process instrumentation, measurement solutions and services in many industries. Founded in 1921 and headquartered in Duisburg, Germany, we offer local contacts for instrumentation projects of any size in over 100 countries. KROHNE stands for innovation and highest product quality and is one of the market leaders in process industry.

KROHNE offers supporting products and services in industries as widespread as oil & gas, water & wastewater, chemical & petrochemical, food & beverage, power, minerals & mining and marine.

KROHNE

Services

Servicing & Maintenance

KROHNE is committed to support the customers with excellent pre & after-sales service & to guarantee the function of our products by delivering high quality instruments. The services can extend from consultancy & engineering and on-site support, up to maintenance and trainings.

- » Start-up & commissioning on site
- » Installation
- » Calibration & Repair
- » Training
- » Checking devices and Recalibration

To request a Service, please contact KROHNE IRAN via:

KROHNE

Products

Innovative and high-quality products

Flow measurement

- 1. Flow meters
 - 1.1 Rotameters
 - 1.2 Magnetic Flow meters
 - 1.3 Ultrasonic Flow meters
 - 1.4 Mass Flow meters
 - 1.5 Flow Controllers

Level measurement

- 2. Level meters
 - 2.1 Radar Level Gauge
 - 2.2 Ultrasonic
 - 2.3 Float Type
 - 2.4 Level Switches

3. Temperature measurement

- 4. Pressure measurement
- 5. Process analytics
- 6. Smart flow control
- 7. Tank Management Systems
- 8. Leak Detection System
- 9. Accessories

10. Flow metering solutions

- 10.1 Metering systems
- 10.2 Metering control systems
- 10.3 Sampling & analyzer systems
- 10.4 Provers and master meters
- 10.5 Monitoring Solutions Wireless & remote metering solutions

Measurement Solutions from the experts

NON-CONTACT INSTRUMENTATION

Berthold Technologies is a privately held technology leader in life sciences, process control and radiation protection. Berthold have been operating from Bad Wildbad in the Black Forest since 1949, maintaining sales & distribution operations worldwide. The innovative technological solutions made in Germany are renowned for their accuracy, precision and unmatched reliability, helping customers to solve complex analytical challenges in a wide variety of industries, academia as well as federal & local government agencies.

BERTHOLD Products:

- » Nucleonic Level Meter and level switches
- » Density Meter
- » Nucleonic Bulk Flow Meter
- » Neutron Moisture Analyzer
- » Microwave Concentration Meter
- » Nucleonic and/or Eddy Current type mold level Meters

Quality Engineered Control Valves

Innovation Made by ARCA

ARCA develops, produces and installs control valves and special valves for a wide variety of industries worldwide. With more than 100 years of expertise and market leadership in industrial control technology, we offer you our ARCA control solutions and accessories in a modular system with a unique promise: controlling your processes safely, efficiently and at the highest technical level.

ARCA Products:

CONTROL VALVE

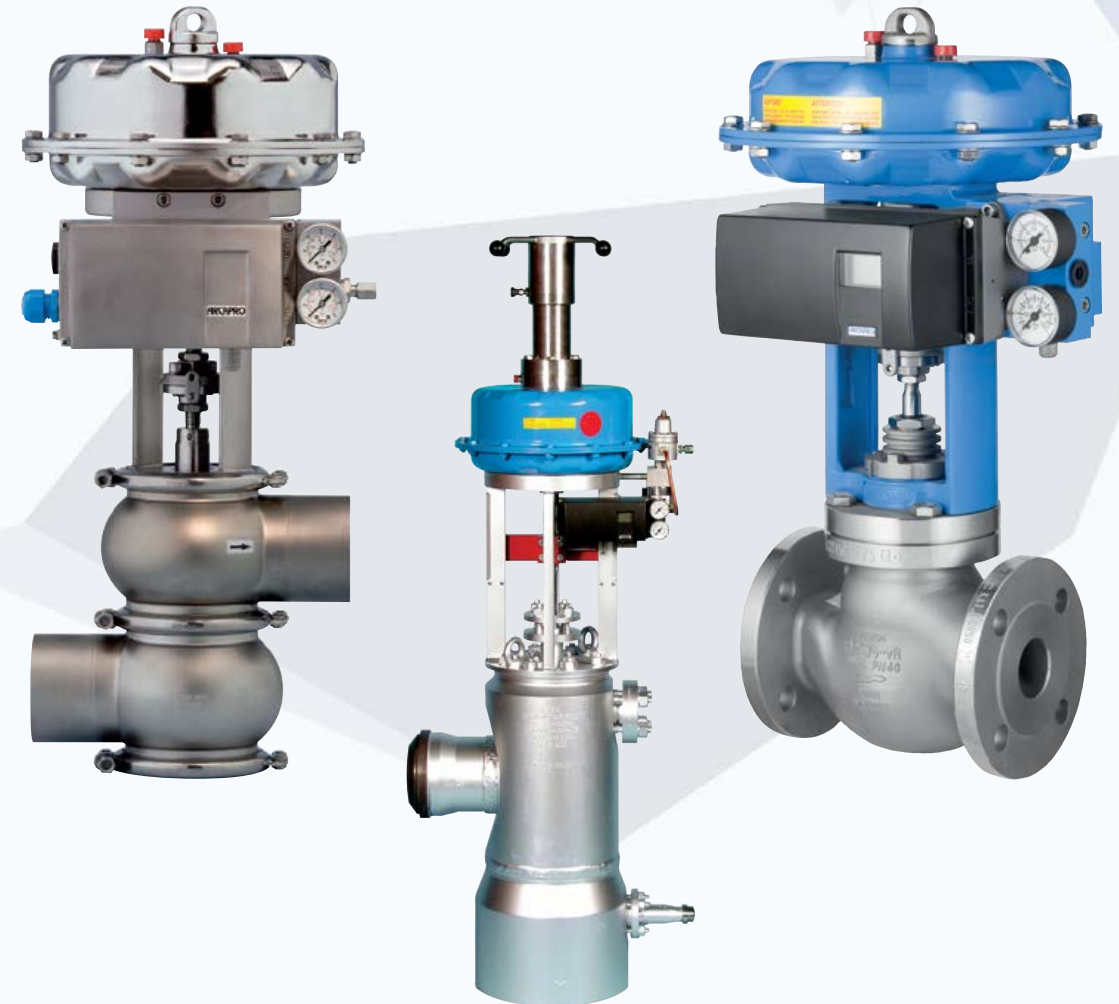

- » Globe control Valve
- » Steam Conditioning Valve
- » Forged Valve
- » Double-seated Valve
- » Three-way Valve
- » Hygienic Valve
- » Angle Valve
- » High Pressure Valve

VALVE ACTUATORS

- » Pneumatic Actuators
- » Electric Actuators
- » Hydraulic Actuators

POSITIONERS

- » Intelligent Positioners
- » Digital Positioner
- » Analog Positioners

Georgin Technology for Measurement

Founded by Marcel Georgin in 1939

GEORGIN offers design, production, marketing and after-sales service and a wide range of products for measurement & a complete range of reliable and proven electromechanical solutions for control pressure and temperature.

GEORGIN Products:

- » Pressure and Temperature Transmitters
- » Pressure Switches for Ex and None Ex Areas
- » Temperature Switches for Ex and None Ex Areas
- » Pressure and Temperature gauges
- » Remote I/O
- » Thermowell
- » Barriers

Special Solution for Industries

Strahman Process Valves

STRAHMAN Group - Established in 1921 - has pioneered many product innovations, including the first free-flowing, non-clogging piston tank bottom and drain valve.

STRAHMAN Products:

- » Decoke & Crack Gas Valve (Double disk slab gate valve / Butterfly valve)
- » Tank BOTTOM Valve (Piston / Disk type)
- » Diverter Valves
- » Line Blind
- » Sampling Valves
- » Drain Valves
